Mr. and Mrs. Henry Brueggeman To
Observe Golden Anniversary Oct. 31Helen Le Compte
Weds Ralph Stahl In
Mokena, Sept. 25

Miss Helen Le Compte, daughter of Mr. and Mrs. Otto Stadel of 193rd street, Mokena, and Ralph Stahl, Jr., son of Mr. and Mrs. Ralph Stahl, Sr., of Los Angeles, Calif., recently of Mokena, were united in marriage in the new sanctuary of the Methodist church in Mokena, Sept. 25. Rev. Hughes B. Morris, recent former pastor of the church officiated at the double ring ceremony, assisted by the pastor, Rev. Dale Kleinschmidt.

The altar was decorated with bouquets of Glads, white Pom poms and Lillies of the Valley. The church choir sang "The Lord's Prayer" with Miss DeLores Cooper at the piano.

Escorted by her father, the bride wore a gown of white satin and lace in princess fashion with a lace jacket. A pearl tiara held her fingertip veil. She carried a white Bible with an orchid.

Mrs. Elizabeth Pink of Chicago served her sister as matron of honor. She wore a yellow satin dress of lace and tulle and carried yellow pom poms. Mrs. Richard Kartz, sister of the groom, was bridesmaid. She wore blue satin with lace and tulle and carried pink carnations.

Richard Kartz was best man and other groom's attendants were, Leroy Dieboldt, and David Bereman, Mokena.

For her daughter's wedding, Mrs. Stahl wore a gown of taupe beige with flamingo accessories. Mrs. C. Kartz, Joliet, who represented the groom's mother wore navy and both had ornate corsages.

Following the service, a reception was held in the VFW hall attended by 325 guests. The buffet supper was served by the Auxiliary members. The bridal table was centered with a three tiered wedding cake.

The young couple enjoyed a week's honeymoon trip at Lake Geneva and are now making their home with the bride's parents.

The bride was graduated from the Orland high school and is employed at the Federal Reserve bank in Chicago. The groom is employed at the Hunter foundry in Mokena.

Lincoln-Way PTA
Has First Meeting
In School Oct. 13

Lincoln-Way high school's first Parent-Teacher association held its first meeting Oct. 13 in the new high school with over 100 parents and teachers present. A panel discussion was held with seven Lincoln-Way teachers on the panel, explaining the operation of their different classes.

Don Wennlund of New Lenox was chosen as temporary chairman of the organization and a committee was selected with representatives from each village appointed to serve. This committee is to study the various types of PTA organizations in order to determine which would be the best for Lincoln-Way. Their investigation is to be completed and the results presented to the group at the next meeting which will be held Nov. 3. At that time the PTA group is to decide whether to become affiliated with a national organization or to remain as an independent group.

Members of the committee are: Bill Heidrich and Mrs. Glen Donaldson of New Lenox, Mrs. James Dixon of Lincoln Estates, Mrs. Stanley Johnson of Frankfort, Lawrence Schleiter and Mrs. J. White of Manhattan and Mrs. Ed Dunham and Mrs. Thomas Powers of Mokena. In addition there are two teachers represented on the committee, Miss Barbara Sprayberry and Miss Theresa Hartman.

PTA To Hear
Stuart C. Kroesch
At School Oct. 26

Highlighting the Oct. 24 meeting of the Mokena PTA will be an interesting talk by a prominent Joliet attorney, Stuart C. Kroesch, who lost his sight while a student at the University of Illinois, will speak on the subject, "To See Again" relating many interesting experiences and humorous anecdotes.

One of the most difficult attitudes for the blind person to overcome is the preconception that blind people are helpless. Kroesch related. Overcoming blindness is accomplished by methods and techniques to compensate for lack of sight. Only understanding can remove the other barrier that prevents the blind person from living a normal life.

"Remember that the only difference between a blind person and a sighted person is that the blind person lacks vision. The blind have the same opportunity to grow intellectually, spiritually and socially. By the use of specially adopted methods they can adjust themselves quickly for their lack of sight. Accept them on the basis of what they are and what they can do. If you do this and extend to them a free understanding, you will help the blind to see again."

His children, Mrs. Selma Duff, Blue Island, Mrs. Agnes O'Neill, Tinley Park and Allan Brueggeman, invite all their friends and relatives to attend the open house on Oct. 31.

Frankfort School
Has Good Turnout
For PTA "Dads Nite"

Dads were in abundance at the special "Dad's Night" PTA meeting held Oct. 13 at the Frankfort school.

Dr. Merle Otto spoke on points of interest to parents concerning the child immunization program and new information on the polio picture.

Dr. Joseph Petnick was chiefly concerned with the proper home preparation a child should have before visiting a dentist for the first time, as well as advantages of fluoridated drinking water.

Mrs. Lee Robinson gave a brief resume of Mrs. Melvin Lockhard's address at the 26th Annual Illinois Congress of Parents and Teachers which several of our members attended.

Of interest to the parents as well as the school children came the news of the roller skating to be resumed at the school within the next few weeks.

After the meeting was adjourned refreshments were served by the hostesses for the evening: Mrs. Burnett Schram, Chr. Mrs. Carl Marienfeld, Mrs. Robt. Burns, M. S. Orval Schroeder, Mrs. Claude Otto, Mrs. Robt. Schweizer, Mrs. Herbert Bixler, Mrs. Clyde Reils and Mrs. Elmer Sievert.

LIONS SPONSOR
COMMUNITY
FUND IN MOKENA

The Lions club of Mokena is sponsoring the 1954 Community Chest campaign in Mokena and vicinity. Other organizations are cooperating with it to make this campaign one of the most successful to date.

It is hoped that a representative will be able to call on each home in the area before Sunday, Oct. 24. Monthly payments on a pledge to the Community Chest are accepted as well as cash contributions.

The total amount of additional financial assistance for services rendered by the Will County Joliet Community Chest Agencies (there are 17 in all) to Mokena for 1953 amounted to \$1874.74. A partial list shows that the Boy Scouts received indirect aid amounting to \$740; the Girl Scouts, \$810; Catholic Charity and Home Bureau, \$140 six patients in Silver Cross hospital, \$125, etc.

A complete report of money collected or pledged together with the names of the workers and their organizations will be published at the close of the campaign.

When a Community Chest worker calls on you with your red feather: "Give - give enough."

Faulty Brakes
Cause Accident

As Charles Swanberg of Swanberg Farm and Auto Service, Mokena, was driving in his new Chevrolet pickup truck last Wednesday afternoon he figured in a slight accident near the Lincoln-Way high school. He had to slow down because of two cars immediately ahead of him and in so doing the brakes of the truck locked which caused him to lose control of it and landed in a ditch along side of the road. The truck was badly damaged.

Riding with him was William McCall, 38, of Toluca. They were answering a call to repair farm machinery. McCall was thrown from the truck and suffered a broken right wrist. Swanberg sustained bruises on his back and shoulder. He was well enough to go to New York Sunday on a business trip. He and his wife made the trip by plane and expect to return home today.

Charles W. Lauffer
Injured Working
On Farm Wagon

Charles W. Lauffer of Marley suffered a deep laceration on his head when a jack collapsed causing a wagon to fall on him. He was working on the wagon changing the wheels when the accident occurred Wednesday, Oct. 13. He was taken to Silver Cross hospital when several stitches were taken to close the wound. He was held at the hospital overnight for observation.

Illinois Editors Hear Gov. Stratton On "Blue Ballot"

When the Illinois Press association held their fall meeting at Decatur, Oct. 8 and 9, Gov. William G. Stratton was the speaker at the Friday noon luncheon. Mrs. Margaret M. Semmler, editor of this newspaper was in attendance and heard Gov. Stratton speak on the proposed Blue Ballot reapportionment amendment.

He stated that the state constitution provides for reapportionment every 10 years. The authors of our state constitution foresaw the constant growth in population and wisely provided for proper representation by reapportionment every 10 years.

This has especially been true the past three years during which time the population has increased 40 to 50%. This increase is not confined to Chicago and Cook county alone but extends throughout the state. Fifty years ago there was but one county, Peoria other than Cook county which was large enough to be a district in itself, now there are many counties with the population of Peoria. This puts the small counties in a difficult position because they are completely submerged and dominated by the larger county districts.

The state population today is over nine million which makes it necessary to reapportion according to population. The plan includes three areas: downstate, Cook county, country towns, and the city of Chicago itself. The 17th district, for example, is a small district in Chicago with a population of around 39,000, so small that it is dominated by political bosses regardless of the party, which is not good for public interest.

The 7th district of Cook county

which sprawls from the Northern boundary to the southern boundary of the county except for the Chicago area, has a population of 850,000, yet has only the same representation as the industrialized 17th district.

Even tho our constitution provides for reapportionment every 10 years there has been nothing done in this matter for the past 50 years.

This blue ballot reapportionment gives downstate Illinois an absolute majority in the senate, and assures that no bill can be passed that is unfair to downstate people.

Although Cook county, with 52% of the states population will have but one more representative in the house than downstate this does not mean that Cook county will control the practical job of enacting legislation. Cook county legislators do not and cannot be expected to vote as a group on legislation issues. Their loyalties to their different political parties, to the desires of the voters and other consideration are stronger than any ties to the geographical area that is called Cook county.

Those who will benefit are the 850,000 people in the suburban Cook county 7th district who now have but 1-20 the voice of the legislature as do the residents of the 17th district.

This amendment, in order to pass, must have the approval of two-thirds of the people voting on the issue, or by a majority of the people voting in the election. Therefore it is essential that all voters take advantage of the opportunity to vote for this reapportionment on election day, Nov. 2.

At the present time the 17th district in Cook county actually outvotes all other districts in the entire state, according to Charles E. Carpenter, secretary of state.

Endorsing this amendment are, both Republican and Democratic parties, the farm bureau, Illinois Banker association, State Chamber of Commerce, PTA, Home Bureau, the AAUW, Illinois Church council, Illinois Educational association, League of Women Voters, American Legion, AF of L, and many others.

Our Need For Water And How We Use It

Today we are making more demands upon water, our most valuable servant, than ever before.

In our homes, water has many functions, old and new. We use it for drinking, for preparing food, for washing our bodies, clothing and household goods, for removing body wastes, for watering our lawns and gardens, and in many other ways.

Water turned the wheels of the earliest mills. Today it turns the wheels of mighty hydro-electric plants that furnish light for our cities and power for our industries. And most of the power not created by moving water is created by water in another form—steam.

The ancient Egyptians used the waters of the Nile to irrigate their land more than 5,000 years ago. Today in the United States we are using some 25 trillion gallons of water per year to ir-

rigate more than 25 million acres of land.

Water is still a highway, even though we now can use both land and air as well. Inland waterways in the United States—not counting the Great Lakes carried 43 billion ton-miles of freight in 1950.

In addition to those long-time uses, we have new ones. The most important of these new uses center around our industries. Industries in the United States use 60 billion gallons of fresh water every day; in fact, the water used by industries weighs 50 times as much as all their other raw materials combined. And these figures do not include the steam flow that is used to create power.

We use water for much of the

recreation we need. The beauty of the landscape it creates, the fish and wildlife it supports, all these give us pleasure and make it possible for us to return to our everyday lives refreshed and renewed.

We also use water to carry away the wastes from our homes, cities and industries. This use has always been important but, today, by overdoing it, or doing it improperly, we are destroying or completely preventing our other uses. Polluted waters are no good to anybody or anything. On the contrary, they are a menace to our health, our recreation, and our civilization. We are mistreating our most valuable servant.

CARD OF THANKS

As I have come to the end of my business career of over fifty years in the one location, I here-with want to express my many thanks to all my former customers for their patronage, during all these many years. My gratitude and very best wishes go

out to all my friends and business associates.

My son, Robert, who has been carrying on this business, known as Funk's Food Store for the past several years, has now sold same to Mr. and Mrs. Max Rauscher, who will continue in the same line of business. We both here-with express our very best wishes for their future success in their undertaking.

John C. Funk
Robert W. Funk
And now, as to myself, I know

that we all will pass through this world but once. Therefore, with the guidance of Our Lord in heaven I will try to do what good and show what kindness I can to my fellow men during the remaining years of my earthly life.

And let us all not forget to try and do this as we will not pass this way again.

Sincerely,
John C. Funk

Tinley School News

Room 302 Friday afternoon were surprised by a visit from Carl Gallina, who has been in Alaska since last June. He answered questions which we asked him, such as kind of climate in the part he was in, kind of food, animals and clothing, used while he was there. He was wearing a handsome jacket embroidered with a map of Alaska, showing the Yukon river, all the cities or towns of note, an oil well, seals and other products.

He was with some Geologists who found a volcano erupting, which

had been dormant for over one hundred years, also land along the peninsula had disappeared which had been used for many years, truly a lot of fascinating knowledge we were given. Hope Carl comes again.

We are starting on our sixth week of school with many showing quite an improvement in our study habits.

Our King, Ronnie Holt is back after a nice trip to the Southern States. Thanks for the cards of views from Florida sent to 302.

Our Queen Ellen, is quite a student who is wishing every one to be as interested in lessons as they are about winning the race.

Our Geography trip to Brazil is becoming very real, when we get a toy llama, so life like, from the home of Richard Virtue. Peggy Owens, found such wonderful pictures of the Rain Forests in Brazil, in Life Magazine, these we have on the bulletin

board, come and hear our class any time, any school day.

Room 300, 8th grade, had an election last week. They chose Joan Beaman, president; Patsy Schwartz, vice president; Diane Koss, secretary and Marlene Moschel, treasurer. Louis Matuzewich and Linda Rodgers will represent the room at Student Council Meetings.

Erosion Control:
"Since leveling and subsoiling, I now get better yields on the hills than I do on level ground and I have no washing and little run-off."
— Madison, S. D.

Better Drainage:
"... previous to subsoiling, we would have to allow about ten days for water to disappear — now it takes only three days. In addition, my oats production has been increased by two-thirds."
— Lake Park, Iowa

Root Penetration:
"... The chiseled portions of the pasture definitely had a better growth of grass, particularly during dry weather. The grass nearest the chisel marks had the greatest growth."

Bremen Loses 7-0 to Strong Reavis Team

An underdog Bremen high school football eleven dropped its opening conference tilt 7-0 to the strong Reavis Rams in Oak Lawn Friday night, Oct. 8.

In suffering only their second defeat in four games, the Bremen Braves checked the powerful offense of the Rams in all quarters but the second period.

Bremen had complete charge of the ball for the first period and a half, but when the Rams finally took over, they charged 68 yards to Bremen paydirt in four plays. The kick for the extra point was good, and the Rams had their winning margin.

A penalty nullified a Bremen pass and hopes for a tie in the closing minutes of the final quarter.

Coaches Larry Callan and Emil Lussow take their starwarts to New Lenox Friday for their second try at a conference win.

Score by quarters:

Reavis 0 7 0 0

Bremen 0 0 0 0

Starting line-up for the Bremen Braves: LG-R Turcol, LT-R Beens, LE-L Christensen, RG-B Calza, RT-B Schramm, RE-J Vanderwall, C-G Nelson, HB-W Linsey, HB-F Warsjelek, QB-D Banicki, FB-R Wesolowski.

Sandburg Braves Bow to Morgan Park

A handful of fans during a cool grey Saturday afternoon saw the Sandburg eleven go down in defeat at the Morgan Park Military Academy field.

Dave Andersen kicked off for the Sandburg players and during the first quarter Morgan Park gained six points with a touchdown.

In the second quarter Tom Lonsom, varsity team captain, blocked a punt and the ball rolled behind the end zone for an automatic safety, giving Coach Devine's boys two points. Morgan Park followed with another touchdown and a successful point after the kick.

After the third quarter kick off by Morgan Park, both teams gave the fans a more exciting, hard fought half as they held each other from scoring. Sandburg's Eagles, as well as the academy team of Morgan Park, had fewer fumbles and both played good defensive ball. Both teams had chances to score but were held from going over the

92nd Birthday

Among the visitors in the Henry Burch home Wednesday were Mrs. Earl Smith and Mrs. Ralph Smith of Manhattan, Jacob Kolar of Lemont and Frank Kolar of here. In the evening the family gathered to say "happy birthday to Grandpa Burch" who was celebrating his 92nd birthday. He received many cards of congratulation from friends far and near.

Death of Robert White

Robert J. White, aged 92, a native of Homer Township, died in his home in Plainfield Oct. 10, after several months' illness.

Funeral services were held at the Luce funeral home, Plainfield, Wednesday with the Rev. Harold M. Kelley officiating.

Surviving relatives are a brother, Charles White of Homer, and several nieces and nephews. His wife died in July of this year.

Mr. White has spent the greater part of his life in Plainfield where he farmed and later, did carpenter work.

The Missionary society of Homer church will meet with Mrs. Fred Kopleman, Thornton St., Lockport, Thursday, Oct. 28, with Mrs. Henry Rodgers assisting. Pot luck dinner will be served at 12:30. Plans will be completed for a dinner to be served to the Couples' club of First Presbyterian church Joliet, early in November.

Mr. and Mrs. Robert Burch left by motor Thursday morning for a vacation in the northwest.

Mr. and Mrs. Edward Kelly and son, Pat, of Peatonica were week end guests of his parents, Mr. and Mrs. Charles Kelly. The Edwards Kellys expect to move to Kentucky soon.

Mrs. David Bier and Mrs. Harvey Ingersoll are serving as Homer chairman of the Community Chest drive. They have appointed helpers in each school district.

Cpl. Warren White arrived at the home of his parents, Mr. and Mrs. David White, Friday morning. He has been stationed with the Marines in Japan for some time and expects to return to Camp Pendleton, Calif., following a 30 day furlough with home folks.

Mrs. F. J. Paddock and Mrs. G. L. Reed attended a meeting of the Joliet Woman's club last Friday afternoon.

Robert David Shepherd, son of Mr. and Mrs. Robert Shepherd, Jr. was christened in St. Matthew's Evang. Lutheran church in Lemont Sunday, Oct. 10. His parents entertained at a family dinner following the service.

Mrs. Frank Loucks has recently been elected secretary of the Will County Home Bureau.

Mrs. Walter Nelson was well written up as "the Woman of the Week" in the current issue of the Lockport Herald. Mrs. Nelson is a Homer native, the daughter of Mrs. Iola Storm and the late Leavens Storm, and is well known in this area. She has recently been made president of the Lockport Woman's club.

Mr. and Mrs. Lynn Perry of Worth were Sunday visitors in the Harry Sproat home.

Mrs. Wright Woods of Frankfort was the guest of Miss Bessie Sproat Wednesday.

High water along the Illinois River valley last spring interfered with the growth of the wild plants on which migrating wild ducks like to feed, and flights of waterfowl may cut their stay in the valley short this fall. However, the present flooded condition of valley lowlands may make better shooting for hunters in shore-line blinds.

This information comes from Frank Bellrose, state Natural History Survey biologist.

The Illinois duck hunting season will open Friday, Oct. 22.

The 65 highway fatalities reported in Illinois State Police District 13 during the first nine months of this year are 25 per cent less than the 87 deaths which occurred in the same period of 1953.

District 13 is made up of 17 southern Illinois counties.

LINCOLN WAY SCHOOL NEWS

The following boys, James Hobbs, Allen Rasmussen, Roland Nice, and Art Fuglsang, accompanied by the Vocational Adviser, Mr. Van Rheeden, drove down and attended the annual section 10 land judging contest held at Chebanse, Thursday, Oct. 7.

The boys learned principles about the soil such as: the color of surface soil, ease of air and water movement, texture, slope, depth of surface and sub soil, which conservation practices should be used. They also determined what the land should be used for.

Section 19 held their annual leadership meeting Oct. 15 at the Minooka High school. There are 30 high schools in Section 19. Along with our F.H.A.'ers and our chapter mother, Mrs. Lane, our advisor, Mrs. Butler, attended.

Those attending from Lincoln-Way High school were: Janet Korgaard, chapter president; Doris Yunker, vice president; Judy Schofield, public relations; Mary Mark, project chairman; Jeanie Anderson, degrees chairman; and Judy Lane, public relations candidate.

We were happy to hear Marvin Nichol who is manager of the Illinois Chain Store Council of Chicago, and who talked to us on public relations.

Carolyn Brodwick, from Peotone was introduced and gave a report on the state leadership meeting at Bloomington and led a discussion on degrees. Carolyn is our state vice president.

At the leadership training

meeting the following officers: president, vice president, and projects, public relations, and degrees chairman attended group meetings where they learned and discussed the duties connected with their office.

The president, Wilma Hollenback, Newark, and vice president, Joanne Coop, Minooka, were elected at the rally held in the spring. The other officers were installed with an impressive ceremony.

R. N. A. News

The Royal Neighbors of America, Dew Drop camp 2023 met Oct. 12 in the Tinley Park school. Miss Nancy Ann Barrowcliff was transferred from juvenile to adult camp.

The birthday chairman, Erna Schoeneck, introduced the following honored birthday neighbors and they were serenaded with the Happy Birthday song: Mesdames, Steinhagen, Anfield, Bendler, Hultsch, Bottema, Roth, Johnston, Cloud, Barrowcliff, Nitsche and Jahrmak.

Neighbor Waldron, who has been ill, was reported better. Sympathy was expressed to Irja Paine who lost her mother recently. The award of the evening was presented to Helen Chapman. Hostesses were, Helen Chapman, Lena Schanz, Alma Jahrmak and Louise Brown.

Home Bureau Elects Officers For 1955 At Lockport Meeting

The Will County Home Bureau's annual meeting was held Sept. 30 in the Lockport Congregational church. Chairman of the Nominating Committee, Mrs. Myrtle Goodwin, assisted by Mrs. Howard Phelps, Mrs. Earl Keniston, Mrs. Ivan Archibald and Mrs. Frank Lewis submitted the names of the officers for the coming year. The group was asked to accept the nominating committee's report and the following members were elected for the year 1954-1955: Mrs. Harry Eaton, Jackson, chairman; Mrs. Glenn Batson, New Lenox, vice chairman; Mrs. Frank Loucks, Homer-Lockport, secretary; Miss Hazel Cowell, Wilton, treasurer; Mrs. Ray Cann, Will, recreation; Mrs. Harlow Nicholson, Jackson, 4-H chairman; Mrs. Richard Erickson, DuPage, financial secretary; Mrs. George Fehrenholz, Leary 'N' Do, publicity; Mrs. Ed Behrens, program chairman.

Mrs. Elmer Ekdahl, Northeast Illinois Home Bureau Federation Director, installed the new officers at an impressive candle-lighting ceremony before the close of the meeting in the afternoon.

A delicious luncheon was served in the dining area of the church. The four long tables were covered with white linen cloths with fall flowers in squash vases, numerous Indian salt and pepper shakers, and candles at the head table, arranged by Mrs. Ernest McClintock and Mrs. John Pollock. The Troy unit. Other flowers for the stage were furnished by the Jackson unit.

Following the luncheon, Mrs. Earl Keniston introduced a group from the League of Women Voters of Joliet who presented a skit on Blue Ballot, urging all women to vote in the coming election.

Miss Glenna Jean Bean entertained the group with two vocal selections: "Indian Love Call" and "Four Leaf Clover". Community singing was conducted by Mrs. Norman Krapf, accompanied by Mrs. Davis Gougat at the piano. They led the group in singing "Your a Grand Old Flag" and "God Bless Our Home."

Sky-Eyes, an American Indian lecturer, was the featured speaker and began her lecture by explaining, clothes she wore. She used the topic "Stop Being Afraid and Live Longer", a lecture she has presented to over 8000 audiences in England, Canada and United States. She spent 3 years in preparing this lecture from 750 pages of notes, and it will some day be published as a book. In her explanation of the six fears that 90% of our people suffer from today, she held the interest of her audience by her humor interspersed with serious suggestions and reasoning, explaining why the fears of poverty, criticism, ill health, loss of love, old age, and death caused so many people to be unhappy.

"You are what you think you can't help anyone unless they can't help themselves," said Sky-Eyes. She also quoted a Sioux saying "Do not criticize the other fellow until you have walked two moons in his moccasins," explaining that "two moons" meant two months. She suggested also "that from this day on, as long as you live, never say to anyone 'How do you feel?'" In explaining the fear of loss of love, she explained in detail the meaning of an elaborate necklace she possesses which expresses the significance of the Indian's love for his mate, emphasizing that love is giving.

In conclusion, regarding the fear of death, she said "It doesn't matter how you die, but how you live." She sang several authentic Indian songs during her lecture and related some interesting personal experiences. Sky-Eyes is a Cherokee Indian and resides in Chicago, pursuing her career as artist, musician and lecturer.

New FORD THUNDERBIRD

A personal car of distinction
...with Trigger-Torque performance

Something totally fresh is here—a bewitching new all-steel beauty that sets the styling keynote for other Ford cars to come.

But, styling gives the merest hint of what the Thunderbird has to offer. In traffic and on the open road the Thunderbird's Trigger-Torque performance is literally a revelation. Here is hair-trigger response... fleet, liquid agility... backed by a reserve of swift, sure power to meet safety's every demand. Trigger-Torque performance stems from Ford's new Thunderbird Special V-8—a high-torque engine with 4-barrel carburetor, dual exhausts, wide-opening valves and Ford's famous low-friction design. And you can have the Thunderbird with the transmission of your choice—Conventional, Overdrive, or new Speed-Trigger Fordomatic.

Ford's Ball-Joint Front Suspension not only velvet-cushions your ride, it also allows the Thunderbird to handle with utmost ease—to corner with greatest stability.

But, more important, the Thunderbird is the product of the same advanced engineering... the same manufacturing skills that have made Ford products so dependable, so value-full and so desirable to so many.

Bremen High News

Bremen high school closed its door to students Friday, Oct. 15 to allow teachers to attend the Lake Shore division Illinois Education Association meeting in Evanston.

Educators from Lake and Cook

counties met in McGall Memorial Hall for County Institute Day which was declared by the County Superintendent of Schools. Governor William G. Stratton and Andrew Holt, vice-president of the University of Tennessee were the featured speakers at the annual meeting of the Lake

Shore Division, IEA. This event climaxed the LSD observance of the IEA centennial year.

In addition to the addresses by Governor Stratton and Andrew Holt, who is the former president of the National Education Association, there was a concert by the Northwestern University band.

Bremen high school released the first edition of the Bremen Echo, bi-weekly school newspaper, to subscribers Friday, Oct. 8.

Pictures appeared in the paper for the first time, as the opening edition was printed on an off-set press. Last year all editions were mimeographed.

Members of the 1954-55 Echo staff are: co-editors, Ruth Birkhead and Ruth Loosemore; assistant editor, Donna Stamper; news editor, Marge Heitman; make-up editors, Given Benscoter and Diane Kasten; camera-man, Ken Short; feature editor, Dorothy Knapp; sports editors, Matt Stupak and Don McPeck; head copy-reader, Marcia Szaton; girls' sports, Margaret James; proof-readers, Diane Glahn, Helen Hoyer, and Mary Lee Schrank.

Other members include: Pat Smith, Beverly Blount, Arlene Wolf, Fred Schmidt, Lee Transier, Carol Johnson, Margaret Schwartz, Mark Padley, Beverly Crossley Breta Hedeen, Gladys Nellet, Judy Carney, Donna Hoffenkamp, Gayle Graham, Lori Smith, Rosemary Schmooch, Pat Anderson, Judy Walliquette, Ann Hallahan, Lillian Thompson, Carl Reichel, David Mensing, and Sue Hupe, editorial.

Circulation managers are Arlene Ladwig, Marlene Scheibler, Alice Ekstrom, Vinnie Christopher, Janice Anderson, and Lori Smith.

Rounding out the staff are Nancy Soyk, business manager; Sue Stein, Ray Bachar, Beverly Hill, Kay Thompson, Ruth Bachar, and Marcia Szaton, art editors; Idalene Jones and Dolly Elf, mechanical; and Lee Transier, Sue Stein, Beverly Hill, Judy Dimmock, and Bunney Nelson, typists.

Mr. Edwin Bruell, English instructor, is the sponsor of the Bremen Echo.

Tells How The Man-Made Water Cycle Operates

A river flows down to a lake or to the sea. A town located along its banks removes thousands of gallons of water each day. First, this water is treated to make it safe for use. Then it is piped through the town's water mains. Each home withdraws a certain amount the family uses it for drinking, cooking, bathing, and many other purposes. Hotels, restaurants, laundries and industries also take

water from the town's supply.

The used water is collected in another set of pipes - the town's sewer system. This water carries the human body wastes, dirt and other unwanted materials from all these homes and businesses. In some towns, this mass of pollution flows into a treatment plant, where it is made harmless before it is returned to the stream. In others, it goes directly into the river.

The next town downstream then removes its thousands of gallons, and the process is repeated. This is the man-made water "cycle" which takes place within the natural cycle. If the wastes are treated by each town, the cycle can go on without serious harm to the stream. If they are not treated, the living waters become sick, or die.

In the late years of the 19th century, scientists like Koch, Lister and Pasteur were learning about disease. Among many other things, they found that drinking water could bring death as well as life. Typhoid fever and cholera, two of Man's most deadly enemies, were traced to water supplies. So were many other diseases. And we are still learning. Scientists today are trying to find out the connection between polluted water and such diseases as polio and undulant fever.

Today we are protected against these water-borne plagues by the modern miracle of water-purification. Engineers can take dirty, polluted water from a river or lake and change it into the safe, sparkling liquid we drink. The job of these water treatment experts is like a physician's job - they cure water that is already sick.

Life as we know it today could not exist without the skill and vigilance of these "water-physicians". Thanks to them, the death rate from water-borne disease has been cut almost to zero; only 91 Americans died from these diseases in the period 1938-1948. But by polluting our streams, we make their job more difficult and more costly. We also increase the danger. A small break in our protective wall - a human error or a mechanical failure - can cause disaster.

One big reason for pollution control, then, is to protect our public water supply. Our health is too valuable to be endangered unnecessarily.

BABSON SAYS-

Copyright, 1954, Publishers Financial Bureau, Inc.

Almost everyone, including boosters for California, Arizona, and New Mexico, will agree that the Florida winter climate cannot be beat. Up to the present time, however, readers have heard no praise of Florida's industrial possibilities.

Any state which lacks industries usually lacks available jobs. This means that before moving to Florida you had better arrange to have a check from a pension fund or from invested funds sent to you from the north each month. Don't go to Florida now without either money or a promised job. This may apply also to other states; but I know Florida, having spent thirty winters there.

The main reason Florida has lacked jobs is because it has lacked heavy industries. The main reason it has not held its own industrially is because of its lack of natural gas - absolutely essential for industries which require a large amount of heat. Only four of our forty-eight states are operating with this handicap.

The first answer to this question is because natural gas has not been found as yet in Florida. It will be found some day; but when, no one knows. The second answer is that the constantly increasing demand for natural gas by the Carolinas, Georgia, Alabama, and other states lessens Florida's chance for supply by pipelines.

The situation has become worse since the big pipelines have been extended to the industrial East. These new pipelines mean more gas used at higher prices. This discourages the building of big pipelines into and through Florida to take natural gas into the state from states bordering Florida on the north.

Through work being done by Willard L. Morrison, a famous engineer of Lake Forest, Illinois, supplemented by the work of the Florida Research Group, at Babson Park, Florida, I believe Florida will get a great supply of natural gas from Venezuela. This gas will be compressed at Venezuela, on the basis of 600 cubic feet of gas being made from one cubic foot of liquid gas.

This liquefied gas will be shipped in barges. They will be towed singly or in pairs from Venezuela to Tampa. The barges will be used for storage of the gas while it is being vaporized. Remember, one cubic foot of liquid gas will make 600 cubic feet of natural gas. Florida may well have the cheapest natural gas of any state.

Already Mr. Morrison is making contracts to sale of this liquefied gas to the Stock Yards of Chicago, after towing it from New Orleans up the Mississippi River. Yet, Florida is 2,000 miles nearer Venezuela than is Chicago. Yes, Florida is headed for a great industrial development. When the condensed liquid turns into gas, a tremendous amount of cold is produced. Mr.

Morrison has selected the Chicago Yards as his first customer instead of many other nearer cities because of the Stock Yards' demand for refrigeration.

But, certainly, Florida needs refrigeration as well as natural gas! It is needed only to freeze citrus juices and to preserve other products, to "cool the entire state in summer." It natural gas is discovered in Florida, or piped in, such gas will give the needed heat, but not the needed refrigeration. Liquefied gas, however, will provide both warmth in winter and coolness in summer, together with the terrific heat needed for industry throughout the year. For further details contact any Florida Gas Company.

Grand Jury Indicts Will Co. Chairman

Pointing to the indictment today of Sen. Paul Douglas' campaign manager in Will County for election crimes in this spring's primary election, Morton H. Hollingsworth, chairman of the Illinois Republican State Central Committee, warned Democrats that law enforcement officials will be alert for repetition of such tactics in the November second election.

In an address before a meeting of Warren County Republican men at Monmouth, Chairman Hollingsworth said, "This morning at eleven o'clock the Will County grand jury handed down an indictment charging the Democratic Chairman of Will County - the hand-picked campaign manager of Paul Douglas with election crimes on 99 counts."

"This indictment charges the Democratic county chairman - the leader of the Douglas faction - with stealing votes from the other Democratic faction in his capacity as election judge in his precinct. This indictment charges Douglas' campaign manager of stealing sufficient votes to effect the election of the wrong man to the Illinois State Legislature."

When you move your corn elevator, be sure that it doesn't touch any overhead electric wires.

Give your lawn a fresh supply of plant food for next spring's growth by putting on about 20 pounds of fertilizer with a 10-8-6 or similar analysis for every 1,000 square feet this fall, says a University of Illinois landscape specialist.

Thomas A. Edison The Wizard of Light

If there is any doubt Thomas A. Edison isn't one of mankind's greatest benefactors, pull the master switch in your home tonight for a few seconds. Suddenly your living, laughing home will seem dead, there will be darkness, no television or ra-

dio, no hum of the refrigerator, nothing, merely an awesome silence.

It will take only a few seconds of darkness to appreciate more fully the genius of Edison whose name is associated not only with the invention of the first practical incandescent lamp 75 years ago, but linked to the amazing total of 1,097 patents granted him by the U.S. Patent Office during his lifetime.

It is understandable that the birthday of electric light on October 21 be an appropriate choice around which to commemorate all of Edison's contributions to mankind.

This very special electric birthday will be celebrated nationally in many ways, but the climax of Light's Diamond Jubilee undoubtedly will occur during the two hour coast-to-coast television show from 8 to 10 p.m. (CST) on Sunday, Oct. 24.

Almost everyone has heard and read the story of Edison and his lamp, and how, after more than 1,600 tests of minerals and plants, a cotton thread from his wife's sewing basket, carbonized and bent in horseshoe form inside one of his sealed glass bulbs was the key to success.

Many may not know that Edison wasn't content to rest on his lamp invention laurels. He envisioned whole cities lighted by electricity, and within five years he had built a complete prototype of the electrical industry and established it as an operating utility in a section of New York's financial district.

This proved a great undertaking since it was necessary for Edison to invent various devices including junction boxes and terminal devices needed to complete the installation as the need for them arose.

Out of the depths of Edison's genius was conceived and produced a revolutionary generator whose 90% efficiency rating astounded the scientific world of 1879. With a converted warehouse as his power plant, Edison used this generator in the pioneer Pearl Street Station to produce enough electricity to

light 400 incandescent lamps in the heart of New York City.

It may not be so well-known that Edison's inventions also included a design for a "multiple circuit" wiring system which permitted each lamp to burn independently, plus the introduction of insulation and cable, fuses and meters, switches and sockets - in fact the multiplicity of

devices necessary to provide electric light economically and efficiently.

Edison summed up his success simply. He said, "I have accomplished all I promised." And a grateful world still echoes to the clicking "eyes" of billions of electric switches flicked to do man's bidding.

If you were alive today, we think you'd be proud of the electrical industry and what it's done for America.

The industry you started back in 1879 with a single light bulb has made life better, richer, and more productive for all of us.

Work-saving electrical appliances do the cooking, cleaning, washing, ironing, and drying in our homes.

Electrical machines make jobs easier, faster, and safer for everyone who works in a factory, in an office, or on a farm.

Electricity lights our way... entertains us... cools us... warms us... does all these things for only a few pennies a day.

If you were alive today, you'd see new ideas in electricity promising an even better way of life for our future.

You'd see new things coming... new and better appliances... new methods of communication... new industrial ideas... new farm equipment... and perhaps other ideas so new we haven't even guessed at them yet.

25 years from now, some of these ideas will have taken their place in our lives beside your light bulb. Which one will be most important to mankind? Which one will be first?

What next, Mr. Edison?
